-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 February 2006.

DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities:

In paragraph 0001 the serial number must be completed.

In paragraph 0010, line 4, "tube"s" should read --tube's--. The specification is replete with occurrences where an apostrophe should be used in place of a quotation mark.

In paragraph 0013, line 3 from the bottom, "in" (first occurrence) should read --is--.

In paragraph 0023, line 4, and paragraph 0049, line 6, "Nos.A1" is incomplete.

In paragraph 0035, line 2 does not read correctly.

In paragraph 0045, line 5 from the bottom, "thereof 178" should read --178 thereof--.

In paragraph 0047, line 1, there is no figure 6 in the drawings.

In paragraph 0047, line 7, "andbeing" should read --and being--.

In paragraph 0051, lines 1 and 2 from the bottom, what is the year of February? There is also no closing parenthesis.

In paragraph 0056, line 3, the figure number is missing.

In paragraph 0057, line 10, the figure number is missing.

In paragraph 0058, lines 2 and 17, the figure number is missing.

Throughout the specification, many words are not separated by spaces. For example, see paragraph 0058, lines 2, 9, 16, 18, 21.

In paragraph 0058, there is no closing parenthesis for the parenthesis in line 14.

Thorough editing of the specification is required.

Drawings

The drawings are objected to because the reference characters are not uniformly drawn in figures 1, 4, 5, 6A and 6B. Figures 4, 5, 6A and 6B are furthermore not drawn with uniform lines. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claim 4 is objected to because of the following informalities: in line 4, --and-- should be inserted following "time,".

Claims 9 to 16 purport to claim a pump. However, no pump structure is recited.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 to 16, “rapid” and “rapidly” are unbased comparisons. Each occurrence of “unusual load” is vague and indefinite.

Thorough revision of the claims is required in order to render them definite in form according to the statute.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 9, as understood, is rejected under 35 U.S.C. 102(b) as being anticipated by either of Friedline (US 3,379,950) or Trussler et al (US 4,322,668). Each of these references discloses an electric motor control which increases current to the motor when excessive load is imposed on the motor to prevent it from stalling.

Art Unit: 3746

Allowable Subject Matter

Claims 1 to 8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 10 to 16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Claims 17 to 32 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on February 28, 2006.
